*NOTE: The small notes in the right hand may be omitted, but if played should be scarcely audible. This song was originally written as a movement in a set of pieces for orchestra, in which it was intended that the upper strings, muted, be listened to separately or sub-consciously as a kind of distant background of mists seen through the trees or over a river valley, their parts bearing little or no relation to the tonality, etc. of the tune. It is difficult to reproduce this effect with piano.
